The distributor of Helmsman products

For storage, lockers, cubicles, seating - new products, service, and spares

Introduction

Total Locker Service supplies storage and changing room products for the education, leisure and business markets, and provides comprehensive service, spare parts and income share packages anywhere in the UK to ensure lifetime value and lower cost of product life.

Total Locker Service was formed in January 2008. The company has a team of the most experienced engineers in the industry, with high levels of knowledge, skill and commitment, working from our Bury St Edmunds base. The company is building a significant customer base, due to a strong commitment to delivery on time and a responsive, cost effective service. It acts as a distributor for Helmsman, Sperrin and other quality producers.

Service

Service agreements can be tailored to suit individual customer needs and can cover both lockers and cubicles. A group contract enables costs to be reduced still further.

A service contract is a cost effective way of extending the life of the products and reduces the frustrations of both customers and staff because the centre functions well and keeps belongings safe. Customers are able to relax and enjoy their stay while staff receive fewer complaints about broken, dysfunctional changing rooms.
