

SPECIFICATION SHEET: S011
SYSTEM 1900D
GARMENT DISPENSER

Sizes available:	Height	Width	Depth
	1820 mm	380 mm	450 mm

Nominal size of individual compartments:

	Height	Width	Depth
5 Compartment	322 mm	380 mm	450 mm
8 Compartment	195 mm	380 mm	450 mm
10 Compartment	156 mm	380 mm	450 mm
15 Compartment	100 mm	380 mm	450 mm
20 Compartment	71 mm	380 mm	450 mm

Strength and Security with Style

Sturdy Construction	Door frame constructed from heavy gauge mild steel of press formed channel section.
Door Strength	Main outer frame supported by full length hinge.
Door Security	All compartments fitted with 10 disc, tumbler cam lock.
Style	Attractive and functional locker design.
Colour	Automated paint plant ensures consistent high quality finish in a wide range of modern colours.

Detailed Product Specification

Nesting:	All Garment Dispensers are drilled to enable bolting together or to Garment Collectors to suit your requirements.
Construction:	Spot welded and pop riveted.
Material & Finish:	Mild steel powder coated.
Door Frame Assembly:	This comprises an inner and outer door frame. The outer frame is manufactured from heavy gauge mild steel channel section. The inner frame is fabricated from heavy gauge mild steel channel with tubular cross members. The inner frame is hinged by means of a full length hinge rod 8 mm diameter manufactured from galvanised mild steel.
Doors:	The small compartment doors are hinged by means of the full length hinge rod. Each door has a rubber buffer to prevent opening damage.
Numbering:	Both inside and outside of the doors can be numbered with thermographic number labels for easy compartment identification.
Bottom:	The bottom is formed as a 50 mm high inverted plinth with return bends at the bottom edge. Edges holed at sides for fitting to stands.
Internal Shelves:	All shelves have safety over and flat front edges.
Locking:	The inner door is secured by a 10 disc tumbler cam lock. All small compartments are fitted with 10 disc tumbler cam locks with two keys to each lock. On delivery of units the keys are fixed to each internal compartment shelf for easy compartment identification.
Paint Finish:	Five stage automatic degreasing and phosphating process to remove surface contamination. This base gives improved adhesion and humidity resistance. The paint is applied by high-speed electrostatic rotating bells, which are computer controlled to ensure the correct thickness of paint is applied. The component parts are then powder coated at the correct temperature to ensure a hard paint finish is achieved.

Colour Range: Body: "Ice" (Light Grey) industry standard colour, other colour options available.
Doors: "Royale" (Royal Blue) industry standard colour, other colour options available.

OPTIONAL EXTRAS: The following can be supplied at an additional cost and, if included, will be specified in the quotation.

Stands: Garment Dispensers can be provided with stands giving 150 mm clearance. Adjustable feet can also be provided.

Sloping Tops: Garment Dispensers can be manufactured with a 150 mm sloping top.

Three Point Locking: The system increases the security of the main door by providing locking in three positions.

End Panels: For aesthetic appearance and to protect row ends, specifically designed end panels are available.

Additional Colours: In addition to our standard "Ice" body and "Royale" door, we can offer colours from our colour range.

Installation: We offers a full installation service for its products.

After Sales Service: All of our products are supported by the our Service Department who provide technical advice, maintenance schemes, prompt delivery of replacement keys/parts and product refurbishment.

- Health & Safety: Lockers must be firmly secured to wall or floor and fixed together in runs for safety purposes. If applicable, install in accordance with specific product instructions.
- All dimensions are nominal.
- To enable us to interpret your requirements accurately, please state at time of enquiry/order the choice of locker type, colour, locking and nesting arrangement and delivery requirement.
- The products described in this specification sheet herein are the subjects of patent, trademark, design and copyright protection or application thereof.
- In the interest of efficiency and service to our customers, the company reserves the right to modify the specifications of any of its products.
